ARCHITECTURAL REVIEW PROCESS AND PROCEDURES

OBJECTIVES

The overall objective of this document is to serve as a uniform guide to submitting an application for construction in a specific and carefully designed community. This process outlines the standards for which an application will be held to and considered for approval by the Architectural Review Board or Designated Reviewer. The purpose of design controls is to assure the developer, builders, homeowners and residents that the standards of design quality will be maintained. This, in turn, protects property values and enhances the community's overall environment. The authority for maintaining the quality of design in a community is found in the Declaration of Covenants, Conditions and Restrictions and Association By-laws, which are a part of the deed to every property.

FORMAT FOR ARCHITECTURAL REVIEW BOARD APPROVAL SUBMISSIONS

Incomplete applications will not be reviewed.

1. Master plans for each section of the community must be submitted for review and approval.
2. Plot Plan and masonry selections must be submitted for review. Once written approval has been obtained construction may begin.

ACKNOWLEDGEMENTS:

- I acknowledge receipt of the Architectural Design Guidelines and have read and agree to abide with them in regards to the modification/addition as proposed
- I understand that a deposit and review fee may be applicable BEFORE my application is reviewed
- I understand that any contractors that I employ are not permitted to place signs on the property
- I understand that greenbelt access or adjacent lot access is not granted for construction (ingress, egress or storage included)
- I hereby agree not to begin any improvements or changes until the Architectural Committee or Reviewer notifies me of their approval
- I understand that I am responsible for maintaining a clean construction site
- I understand that Plans and specifications submitted for review are **not** being reviewed for structural integrity; compliance with zoning and building ordinances or any other applicable statutes, ordinances or governmental rules or regulations, compliance with the requirements of any public utility, easement or other agreements, or preservation of any view.

SPECIAL NOTE-CITY APPROVALS. It is the builder's responsibility to obtain all required approvals and permits. Proper authorities should be contacted prior to beginning any work in order to verify what procedures must be followed and obtain required permits. City or County approval does not preclude the need for architectural approval and vice versa.

I hereby acknowledge that I have read the Architectural Process and Procedures and understand the information that has been provided to me regarding the process.
